

# What's New in Abila MIP Advance™ Version 2017.1?

Nonprofit finance and accounting professionals need solutions that enable them to efficiently enter and manage their finances. In this latest release, we've built intuitive workflows for managing Accounts Payable within our reimagined **MIP Advance™** web-based interface.

In addition, there's a complimentary dashboard for Accounts Payable and a vendor information report that utilizes MIP Advance™'s new report designer mode backed by a scalable, high performance report queue.

- **Accounts Payable** – Quickly pay invoices, print checks, and manage all of your vendors within a web-based UI, exclusive to MIP Advance™.
  - Select invoices and create batches to pay all within an intuitive workflow.
  - Easily generate and print checks.
  - Quickly locate existing vendors, using auto-complete search.
  - Add and update vendor information, including payments, discounts, and issuing Form 1099s.
  - Store unique vendor details within user-defined fields and the Notes tab.
- **Role-Based Dashboard** – Quickly visualize Accounts Payable financials. Get a snapshot of your aged payables, view your cash balances/forecast payables by GL segment, and see outstanding payables broken down by top vendors.
- **Enhanced Session Management** – Easily view posted and/or unposted sessions with new search tools.
- **Intuitive Report Designer** – This new tool features interactive drag-and-drop selection, filters with key operators, and offers configurable layouts. Easily preview and search inside reports with keywords.
- **Enhanced Report Queue** – Organize, quickly generate, and export reports.
- **Importing** – Now supported within the MIP Advance™ web interface.
- **Expanded Accounts Payable API** – Our REST-based API (application programming interface) can be used for a variety of integration needs.
